

ELECTRONIC CUT,
STRIP & UNJACKET MACHINE

TSA15E

For single core,
multicore and flat cables

TSA15A is designed for the processing of insulated and un-insulated single core, multicore and flat cables. The machine counts the batch, measures the cutting length, strips and unjackets without needing to change blades. Through an easy-to-use control panel with a 12-inch color touchscreen display, the operator can constantly overview the work in progress, set and correct batch parameters, and receive batch information.

TSA15A is equipped for inline processing with other Samec machines, including motorized cable dereelers, pre-feeders, wire markers and stackers – the machines are connected through a cable to the various interfaces, allowing signal exchange between machines and centralized management of emergencies.

Manufactured using high quality methods and materials, the machine guarantees long term durability. The case is constructed in welded metal and all mechanical details are treated to prevent environmental oxidation. Electronic parts are produced with reliability and functionality in mind, using high integration components, while the top quality pneumatic parts can be easily found in Europe and abroad. The electrical system conforms to EN60204-1 industry regulations.

**SAMEC
MACCHINE**
wire technology solutions

Some details

TECHNICAL SPECIFICATIONS

Wire Length	230mm - 500 meters (9.0in - 1640ft)
Wire Outer Diameter	2mm - 16mm (0.079in - 0.63in)
Wire Gauge Range	1mm ² - 70mm ² (18AWG - 2/0AWG)
Power Supply	230*/400V 50/60Hz 8A 3 Phase
Air Supply	6 Bar
Dimensions	1250L x 650W x 800H mm (50in x 26in x 32in)
Weight	220kg / 485lbs

*Transformer required for 230V

Inline assembly example:
 1. Prefeeder
 2. Inkjet marker
 3. Cut, strip & unjacket machine
 4. Coiler

FEATURES:

- Display and Keyboard (optional Touchscreen)
- Cable length controlled via encoder
- Double Jacket Cut by rotating cable (reduces need for radius blades)
- Acceleration and deceleration ramp speeds are programmable

OPTIONS AND ACCESSORIES:

- Touchscreen Display
- Slitting Unit
- Rotary Stripping Unit
- Wire Pre-feeders
- Wire Stackers
- Coiling Units (with or without bundling)
- Inkjet Marking
